

I've had enough of these little wimpy haulers.

Here's the rig for me:

52 foot coach. 40 foot trailer.

Class 8 (semi-tractor) chassis rated for 52,000 lbs.

Brakes designed to stop 120,000 lb loads.

Warranty: 500,000 miles engine, 750,000 transmission & differentials, 200,000 chassis.

Can tow up to 40,000 lbs.

Engines up to 600 lbs. and 2,000 ft. lbs. of torque.

Think it's too big to handle for parallel parking in front of Starbucks? New for 2006 - **Lateral Drive** (rear of coach picks up & can move sideways for parking).

But wait, there's more.

**We have been working hard for over a year now designing and developing the new Ultra Coach line here at Powerhouse . This line offers a wide body with 3 hydraulic slide out rooms , R-10 wall & R-25 floor & ceiling insulation ( one of the highest in the industry) .**

**Only from Powerhouse a hydraulics car lift so you can tow almost any vehicle without setting it up special for towing ( how much does it cost you every time you trade tow vehicles and tow bars )**

**Now you see it now you don't at the push of a button this very versatile lift can be setup as a rear deck for motorcycles or what ever you need to haul or carry rated extended at ( 3500 lb. lift & 7800 lb. towing )**

**You just don't find these kind of custom features any where else**

**ONLY from Powerhouse Yes that is a full size 3/4 ton pickup**

**We use lots of custom special effect pearl base coat clear coat paints**

**What do you want guarding your life a pane of glass in a bus or diesel pusher or 5 feet of 12 inch frame rail and a HUGE engine up front**

**( Unlike other truck conversions ) a Powerhouse Coach is very streamlined and aerodynamic we make truck chassis coaches that look the way they should ( not like a Snap On tool truck with a bed over the roof )**

**With the Powerhouse vehicle towing unit you can take what ever you need for a tow vehicle ( AND YOU CAN BACK UP WITH A CAR IN TOW )**
