

| BEV Device Mounting sorted by Location |  |                         |                                |
|--|--|-------------------------|--------------------------------|
| Item #                                 | Description  | Mount Location          | Connector                      |
| 1                                      | air seat compressor  | cab                     | crimp                          |
| 2                                      | air seats  | cab                     | proprietary                    |
| 3                                      | 18" map lights   | cab interior            | crimp                          |
| 4                                      | Overhead console   | cab interior roof       | crimp                          |
| 5                                      | Driving lights   | cab rack                | crimp                          |
| 6                                      | Garmin GPS antenna mount   | cab rack                | clamp                          |
| 7                                      | ICOM VHF radio antenna mount   | cab rack                | need                           |
| 8                                      | Iridium sat phone antenna mount  | cab rack                | clamp                          |
| 9                                      | Skymate VHF antenna mount  | cab rack                | clamp                          |
| 10                                     | Pioneer GPS antenna mount  | cab top/rack            | magnetic                       |
| 11                                     | Camper AC/DC distribution panel  | camper                  | crimp eye                      |
| 12                                     | Remote control panel   | camper                  |                                |
| 13                                     | UV water filter / xfer pump panel  | camper                  |                                |
| 14                                     | UV water filter / xfer pump panel switch                                     | camper                  | crimp spade                    |
| 15                                     | Fresh water send   | camper base             | 1/2" NPT pipe                  |
| 16                                     | Raw water tank outlet feed to xfer pump                                      | camper base             | 1/2" NPT pipe                  |
| 17                                     | Raw water tank polish return from raw tank to xfer pump                      | camper base             | 1/2" NPT pipe                  |
| 18                                     | 220 VAC battery charger remote cable   | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 19                                     | 220VAC battery charger bat temp sensor cable                                 | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 20                                     | AC Camper AC/DC dist panel send buss A 4 pole female inline                  | camper interconnect     | Hubbell HBL430C12W             |
| 21                                     | AC Camper AC/DC dist panel send buss A 4 pole male panel mount               | camper interconnect     | Hubbell HBL430B12W             |
| 22                                     | AC Genset feed 4 pole female panel mount                                     | camper interconnect     | Hubbell HBL430R12W             |
| 23                                     | AC Genset feed 4 pole male inline  | camper interconnect     | Hubbell HBL430P12W             |
| 24                                     | AC Genset send camper AC/DC dist panel buss B 3 pole female inline           | camper interconnect     | Hubbell HBL320C4W              |
| 25                                     | AC Genset send camper AC/DC dist panel buss B 3 pole male panel mount        | camper interconnect     | Hubbell HBL320B4W              |
| 26                                     | AC Shop send 3 pole female panel mount                                       | camper interconnect     | Hubbell HBL320R4W              |
| 27                                     | AC Shop send 3 pole male inline  | camper interconnect     | Hubbell HBL320P4W              |
| 28                                     | Backup video camera signal & power   | camper interconnect     | Hypertronics 4 pole            |
| 29                                     | Balmar Voltage Regulator field coil current                                  | camper interconnect     | Hypertronics 3 pole            |
| 30                                     | Camper 7 pin chassis lighting panel mount                                    | camper interconnect     | crimp bullet                   |
| 31                                     | DC 120 Amp Chassis Ground AC/DC dist panel 1 pole APP Power Pole             | camper interconnect     | APP Power Pole 1321G4 + 1319   |
| 32                                     | DC 200 Amp send camper AC/DC dist panel 2 pole female inline                 | camper interconnect     | APP PMHPAF12S01                |
| 33                                     | DC 200 Amp send camper AC/DC dist panel 2 pole male panel mount              | camper interconnect     | APP PMHPAM14P01                |
| 34                                     | DC 200 Amp start battery feed + and chassis ground 2 pole female panel mount | camper interconnect     | APP PMHPAF14S01                |
| 35                                     | DC 200 Amp start battery feed + and chassis ground 2 pole male inline        | camper interconnect     | APP PMHPAM15P01                |
| 36                                     | DC 400 Amp house battery feed + and - 2 pole female panel mount              | camper interconnect     | APP PMHPBF14S01                |
| 37                                     | DC 400 Amp house battery feed + and - 2 pole male inline                     | camper interconnect     | APP PMHPBM15P01                |
| 38                                     | DC solar panel feed + and - 2 pole   | camper interconnect     | APP Power Pole 1380G1 + 1380G2 |
| 39                                     | Inverter battery temp sensor cable   | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 40                                     | Solar charger battery temp sensor cable                                      | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 41                                     | Solar controller remote cable  | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 42                                     | Surge guard / transfer switch remote cable                                   | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 43                                     | Xantrex system remote cable  | camper interconnect     | Woodhead IP67 RJ45 WJP1F5      |
| 44                                     | Genset remote control  | camper remote panel     | proprietary                    |
| 45                                     | Remote control panel lighting switch   | camper remote panel     | crimp spade                    |
| 46                                     | Skymate control switch   | camper remote panel     | proprietary                    |
| 47                                     | Solar controller/charger remote  | camper remote panel     | RJ11                           |
| 48                                     | Spare 12VDC switch   | camper remote panel     | crimp spade                    |
| 49                                     | Surge guard remote   | camper remote panel     | RJ11                           |
| 50                                     | Xantrex 220VAC battery charger remote control                                | camper remote panel     | RJ11                           |
| 51                                     | Xantrex auto gen start remote  | camper remote panel     | RJ45 and proprietary           |
| 52                                     | Xantrex system remote  | camper remote panel     | RJ45                           |
| 53                                     | Solar panels   | camper top              | terminal strip                 |
| 54                                     | Garmin 276C antenna cable  | camper top interconnect | gland                          |
| 55                                     | Iridium sat phone antenna cable  | camper top interconnect | gland                          |
| 56                                     | Nera 1010 BGAN terminal to antenna cable                                     | camper top interconnect | gland                          |
| 57                                     | Skymate GPS antenna cable  | camper top interconnect | gland                          |
| 58                                     | Garmin GPS antenna mount   | camper top rail         | clamp                          |
| 59                                     | Iridium sat phone antenna mount  | camper top rail         | clamp                          |
| 60                                     | Nera 1010 BGAN antenna mount   | camper top rail         | clamp                          |
| 61                                     | Skymate GPS antenna mount  | camper top rail         | clamp                          |
| 62                                     | Backup video camera power circuit  | chassis                 | stock backup light circuit     |
| 63                                     | Balmar Alternator  | chassis                 | proprietary                    |
| 64                                     | Balmar Voltage Regulator   | chassis                 | proprietary                    |
| 65                                     | Camper 7 pin chassis lighting pigtail  | chassis                 | crimp                          |
| 66                                     | Filter Boss  | chassis                 | crimp                          |
| 67                                     | Filter Boss heater elements  | chassis                 | van body dome light circuit    |
| 68                                     | Filter Boss moisture alarm circuit   | chassis                 | stock circuit                  |
| 69                                     | Genset   | chassis                 | proprietary                    |
| 70                                     | 400 amp fuse block   | chassis - house bank    | terminal & lug                 |
| 71                                     | 200 amp fuse block   | chassis - starter bank  | terminal & lug                 |
| 72                                     | DC Jump terminal -   | chassis - starter bank  | terminal & lug                 |
| 73                                     | DC Jump terminal +   | chassis - starter bank  | terminal & lug                 |
