

Student Certifications

Each level of Certification builds upon the requirements of the previous Standards. All of the Standards except for Coastal Navigation and Celestial Navigation are divided into "Sailing Knowledge" which is tested by a written examination, and "Sailing Skills" which are evaluated by an ASA Certified Instructor.

If you do not receive your Certification Seal from the ASA within 30 days of completing the Sailing Skills and Sailing Knowledge Examination, contact your ASA Certification Facility. Your ASA Instructor will make sure you receive your seal.

This is to Certify that:
